

AFRIGETICS

Feel Better Naturally.

Afrigetics is an exclusively African herbal range based on trusted and scientifically backed herbal medicines.

Our products are 100% natural medicines that complement and enhance the body's innate ability to heal itself, restoring balance without the use of synthetic drugs or chemicals.

Afrigetics is committed to high quality, sustainable products. Our herbal extract range includes seven traditional African herbs famed for their effectiveness. Since its establishment in 2003, Afrigetics now ships locally-produced products all over the world.

A benefit sharing program ensures that part of the profit goes directly to the San people of South Africa who have treasured herbal knowledge for centuries.

Afrigetics Quality

All the plants in our range comply with quality standards recorded in the African Herbal Pharmacopoeia. Traditional medicines are considered safe to use based on their long history of use, provided they are taken as prescribed. Wild herbs are good for you and the environment, and our capsules are 100% vegan.

Wild Harvested Medicinal Plants from Africa.

Immune Booster

IMMUNE BOOSTER

Sutherlandia frutescens and *Hypoxis* are Southern Africa's most widely used adaptogenic tonic herbs and are renowned for their immune-boosting, anti-oxidant, anti-viral and anti-inflammatory properties.

Sutherlandia and Hypoxis
